- Adaptability
- Consistency
- Work ethics
- Attention to detail
- Critical thinking
- Research
- Front-end Development
- Back-end Development
- SEO
- UI/UX design
- Clean Code
- Responsive Design
- HTML5, CSS3, JavaScript, React, Next.js Node.js, Express.js, MySQL, Sequelize, MongoDB, Mongoose

EDUCATION

Courses on Udemy:
JavaScript Course - ~ 52 hours
Node.js Course - ~ 40 hours
React Course - ~ 48 hours
Next.js Course - ~ 25 hours

PERSONAL PROJECTS

PETSHOP

https://animus-lucian.herokuapp.com

The project consists of an user-friendly e-commerce platform with a pleasant and responsive design, which allows users to save their addresses, send orders, change their personal data. Administrators can add, modify or delete products.
Technologies used: EJS, Sass, Bootstrap, JavaScript for the Front-end, Node.js Express.js, MySQL, Sequelize for the Back-end.

ELEFANT.RO HOMEPAGE IMITATION

https://copie-elefant-ro-next-js.vercel.app

The application is an imitation of the main page on elefant.ro. Everything related to the design belongs to elefant, except for the different icons that come from different sources, mentioned in a file that can pe found in the source code.
I thought it was a good exercise to learn better how to work with NextJS and to develop my fullstack skills, especially frontend.
The main knowledge gained from the development of this application are: accesibility, page speed optimization, page layout, many features offered by NextJS.
More details: https://github.com/lucianm05/copie-elefant.ro-nextJS

ACTIVITY

MICROSOFT STUDENT AMBASSADOR
07.04.2021 - PRESENT
